# About This Document

This document describes all relevant changes **from Eclipse Scout 9.0 to Eclipse Scout 10.0**. If existing code has to be migrated, instructions are provided here.

## Service Releases

Scout 10.0 will continue to be maintained for a while and a new build may be released from time to time, following the [Simultaneous Release Cycle](#). Beside bugfixes, these service releases may even contain some minor features.

The following changes were made after the initial 10.0 release.

### Simrel 2020-03 — TBD

The here described functionality has not yet been released and is part of an upcoming release.

## API Changes (Java)

### StrictSimpleDateFormat

`org.eclipse.scout.rt.jackson.dataobject.StrictSimpleDateFormat` was removed. Use `org.eclipse.scout.rt.platform.util.date.StrictSimpleDateFormat` instead.

### ObjectUtility

`nv1Optional()` was renamed to `nv1Opt()`.

## API Changes (JavaScript)
